

Professional Development

Educators receive lessons and tools to use with their students with all our PD!

Let STEM Fuse help you take your students to the next level by providing educators the tools they need to be highly successful! Our PD team are educators themselves and understand the demands that today's educators have on their time and energy.

21st Century Technology in the Classroom

Option 1: 3 hour virtual or *in person

\$2500 per session

Option 2: Full day in person session includes training on hardware and software

\$5500 per session + travel exp

An interactive workshop teachers will learn creative ways to use technology in their classroom.

- Explore storytelling tools such as Blabbersize, Time Toast, Animoto, and Word Clouds.
- Create an audiovisual lesson using Vocaroo, Showbox, Audacity, or Audiotool
- Design media content using Spiderscribe, Canva, Pixier, or Lucidpress
- Design a presentation using emaze, Prezi, or Slidestory
- Explore teaching and learning tools such as Showby, Bingo Baker, QR Stuff, Kahoot, SnapType, and Smore.

HARDWARE: Any computer, laptop or tablet.

**Educators will receive lessons and tools to use with their students*
